Dear Supervisor Hay:

I hope you are enjoying the summer. As I mentioned in earlier correspondence, Spectra Energy is currently evaluating the Access Northeast project which is in the developmental stage. If the project moves forward, it would result in the replacement of the existing 26 inch pipeline with a 42 inch pipeline in the Town of Southeast. One of the first steps in the evaluation stage is to hold a landowner information meeting for those landowners directly affected or within the study corridor (150 feet on each side of the existing pipe). This meeting has been scheduled as follows:

Carmel, Southeast, New York

September 2, 2015

5:30 pm - 7:30 pm

Lodge of Elks #2101

1430 Route 22 & Milltown Road

Brewster, NY 10509

The format is more akin to a "college fair" than a formal presentation. Spectra staff from all our disciplines will be available to discuss the proposed project in detail with individual landowners. Of course, you are welcome to attend the meeting. If you have any questions, please do not hesitate to contact me at 914-715-1241.

Best,

Christian
